Covid-19 Clinic in North Brentwood Administered 104 Shots in One Day

On November 20, the Town of North Brentwood hosted a Covid 19 vaccination clinic: 104 individuals, including 30 children, received shots. Hosting a clinic in North Brentwood was the brain-child of Mayor Petrella Robinson, who collaborated with Mayor Rocio Treminio-Lopez of Brentwood and Wanda Wheatley, Commission Chair of Cottage City.

In addition, Prince George's Department of Health was there in full force. "One-hundred and four shots in arms are significant in our struggle to combat this horrible pandemic. It means fewer patients in hospitals, fewer carriers of the disease infecting others and, finally, it will help us return to some sense of normalcy," Mayor Robinson opined. Those who received shots were treated to Seafood Boss's seafood/hamburger meals.

The Covid 19 clinic will return to North Brentwood on December 11, at 4012 Webster Street, from 12 to 4pm. Appointments are not required, but masks are. Each participating family will get a \$50 Walmart gift card!

The Town of North Brentwood would like to thank Byron Jones, the North Brentwood Community Center staff, and everyone else who worked diligently to ensure the operation went smoothly.

Covid-19 Booster Shots Available

Booster doses by Pfizer, Moderna and Johnson & Johnson are available to all fully vaccinated adults. If you've had two doses of Pfizer or Moderna, and it's been six months since your last dose, you can get the booster. If you had one J&J dose and two months have passed, you're eligible for the booster.

Booster doses can be mixed. So, if your first and second shots were Pfizer, you can get a Moderna booster if you desire. Individuals do not need proof to receive a booster. Individuals under the age of 18 need a consent form from their parents.

PG's County Health Department operates one permanent vaccination clinic and nine mobile vaccination units. Visit mypgc.us to locate a clinic.
